- Created web3 applications.
- Worked with blockchain technology
- Set up and maintained different basic cloud infrastructures.
- Created REST APIs with Node.js/Express.js.
- Set up and worked with MongoDB clusters.
- Was responsible for projects' technical documentation and technical design.
- Consulted other developers.
- Presented projects to the clients.
- Provided technical support.
- Quickly learned new skills and applied them to daily tasks, improving efficiency and productivity.
- Carried out day-day-day duties accurately and efficiently.
- Demonstrated respect, friendliness, and willingness to help wherever needed.
- Worked flexible hours; night, weekend, and holiday shifts.
- Maintained energy and enthusiasm in fast-paced environment.
- Proved successful working within tight deadlines and fast-paced atmosphere.
- Used critical thinking to break down problems, evaluate solutions and make decisions.
- Improved operations through consistent hard work and dedication.
- Used coordination and planning skills to achieve results according to schedule.

04.2021 - 08.2021

Full-Stack Web Developer and Mobile Developer

Nodtransfer - Remote

I worked as a freelancer with an African money transfer company to help them build their online presence for their system and e-commerce. Additionally, I was working on a React Native mobile app for their platform. Unfortunately, this project was frozen due to economic struggles in the company. During my work with this company I:

- Created informational, fully customizable websites with WordPress CMS.
- Provided technical support to the company.
- Provided technical consultation.
- Was working as a part of a big team of developers. Which required frequent and thorough communication.
- Worked on a mobile app using React Native.
- Created UI screens with React.js for companies' products.
- Employed coding practices based on commonly accepted standards to establish site layout and user interface.
- Collaborated with in-house web designers to create sleek and innovative UI designs.

04.2020 - 05.2021

Full-Stack Web Developer. Head of IT Department

SMO UCT - Kharkiv, Ukraine

I provided freelancing services for the IT department of the company. Held the position of lead developer. After six months of work became the technical lead for all projects and the head of the IT department. In this position, I did the following:

- Created websites using HTML, CSS, SASS, JavaScript, and advanced animations with GSAP, WordPress, WooCommerce, and many other technologies.
- Was responsible for technical maintenance of all companies' web resources: custom-made and WordPress websites.
- Was responsible for projects' technical documentation and technical design
- Supervised a team of two developers.
- Introduced project management techniques that allowed for a 50% boost in team productivity within a month.
- Consulted other developers.
- Presented projects to the clients.
- Provided technical support.
- Quickly learned new skills and applied them to daily tasks, improving efficiency and productivity.
- Carried out day-day-day duties accurately and efficiently.
